DURAPAC *SYSTEM ACCESSORIES* ALLOW FOR EASY CONNECTION AND ASSEMBLY OF DURAPAC HYDRAULIC TOOLS, PUMPS AND EQUIPMENT.

All items are carefully designed and selected to be compatible with Durapac 700 bar working pressure equipment. High pressure hydraulic hoses are available in many standard lengths and can be custom made to special lengths on request. Our fittings are a 700 bar design with a 4:1 safety factor and are permanently marked with part number and working pressure. In line flow control valves allow system designers to assemble a safe controlled system using needle valves, check valves and pilot operated counter balance valves. Hydraulic pressure gauges and coupling options; including screwed and snap type ensure your hydraulic system is working safely and efficiently.
